Islamabad The Most Beautiful Capital

Islamabad is beautiful. It is a region-wide symbol of progress, innovation and architectural marvel. Settlement in Islamabad, the new capital after Karachi, began in the 1960s. Since then has been a steady growth in the population of the city, which has swelled to somewhere in excess of two million inhabitants. At the moment, the capital city is the fastest growing urban settlement in the country. There is an increased interest in the city from both the public and private sector as well as a renewed drive from multinational foreign investors. This has caused a growth in the economy, produced employment at all levels and ensured development.
